Target Apprentice Populations
Individuals with Disabilities, Minorities, Veterans, and Women.

Project Overview
Safal Partners, a nationally recognized leader in innovative workforce and education solutions, takes a field-tested approach to help organizations across the American economy adopt Registered Apprenticeship as a strategy for recruiting, training, and retaining workers in critically needed tech occupations. Our team draws on a strong, national network of relationships with USDOL OA and State Apprenticeship Agency directors and staff, workforce boards, educational institutions, minority-serving institutions, and community impact organizations to support our Registered Apprenticeship partners.

Safal is a USDOL-approved national Registered Apprenticeship program sponsor. We provide technical assistance to employers or intermediaries who wish to sponsor their own customized RA programs. All of Safal's apprenticeship partners can access industry-built, credential-aligned, online training for their apprentices' related instruction at no cost. We also provide robust, customized program support to ensure that our partners have the training and practical help needed to sustain a high-quality program.

Types of Services/TA Provided
National program sponsorship, RTI provision, college program/course mapping to RTI, mentor training, standards development, apprentice recruiting, RAPIDS training/registration support, program marketing
