

U.S. Department of Labor Employment and Training Administration Office of Apprenticeship Training, Employer and Labor Services (OATELS) Washington, D.C. 20210	<u>Distribution:</u> A-541 National Office A-546 All Field Tech A-547 SD+RD+SAC+; Lab.Com	<u>Subject:</u> New Apprenticeable Occupation – Information Assurance (IA) Specialist <u>Code:</u> 200
Symbols: DSNIP/WC		<u>Action:</u> Immediate

PURPOSE: To inform the Office of Apprenticeship Training, Employer and Labor Services (OATELS), Bureau of Apprenticeship and Training (BAT) Staff of a new apprenticeable occupation:

Information Assurance (IA) Specialist
RAIS Code: 1060
O* NET Code: 15-1071.01
Training Term: 6000 hours
Type of Training: Time - based

BACKGROUND: Washington State Director Anne Wetmore, on behalf of the Naval Undersea Warfare Center, Division Keyport, WA, initiated this apprenticeability request for this occupation.

The specific requirements for completing the Information Assurance Specialist concentration are:

- 1) 6000 hrs of on-the-job learning through an approved employer sponsor,
- 2) 1050 hrs of Institute Lead Training (ILT) in technical training as defined in the standards.

ACTION: All OATELS staff should review and retain a copy of this bulletin, including all attachments, as a source for developing apprenticeship standards and/or providing technical assistance.

Attachments

Information Assurance Specialist (IAS)
O*NET CODE: 15-1071.01 RAIS CODE: 1060CB

DEFINITION: An information assurance specialist provides planning, analysis, development, implementation, upkeep, and enhancement of systems, programs, policies, procedures and tools to ensure the integrity, reliability, accessibility, and confidentiality of information systems and assets. It includes information assurance functions that protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality, and non-repudiation. An information assurance specialist also provides for the restoration of information systems by incorporating protection, detection, and reaction capability. This includes system/network protection; intrusion detection and monitoring; readiness assessments; firewall administration; security policy enforcement; risk and vulnerability assessments; security evaluations and audits; and contingency plans and disaster recovery procedures.

Three Levels of IAS Apprenticeship:

Technician I--- 2,000 hours on-the-job training plus 350 hours of related classroom

Technician II—2,000 hours on-the-job training plus 350 hours of related classroom

Technician III--2,000 hours on-the-job training plus 350 hours of related classroom

TOTAL TERM of APPRENTICESHIP:

6,000 hours OJL plus 1050 hours classroom and 3 Industry Certifications

TRADE SCHEDULE INFORMATION ASSURANCE

During the term of apprenticeship, the Apprentice shall receive such instruction and experience, in all branches of the occupation, as is necessary to develop a practical and versatile worker. Major processes in which Apprentices will be trained (although not necessarily in the order listed) and approximate hours (not necessarily continuous) to be spent in each are as follows:

Information Assurance Apprentice Technician Level 1					
Information Assurance Specialization - General (IA1 1.1)			Hours		Job Related Competencies
			OJL	ILT	
IA1 1.1	Know:	The "language" of security - terms and acronyms.			Ability to understand and explain security and Information Assurance terminology.
	Do:	Study and learn security terminology and common security acronyms.	4		
	ILT:	-			
	Exit:	Ability to understand and explain security and Information Assurance terminology.			
IA1 1.2	Know:	The roles and responsibilities of the Information Assurance Organization.			Ability to explain and discuss the IA organizational titles, roles and responsibilities.
	Do:	Correctly identify the IT organization structure, roles and responsibilities including roles such as; System Administrator, Information Assurance Manager, Information Assurance Officers, Network Security Manager, Network Security Officers, and Designated Approval Authority. Provide a complete and accurate short presentation or paper on the organization's security roles and responsibilities.	24		
	ILT:	-			
	Exit:	A complete and accurate short presentation or paper on the organization's security roles and responsibilities.			
IA1 1.3	Know:	Password Security Concepts			Ability to configure password characteristics for a domain.
	Do:	Become familiar with password policy and characteristics (length, complexity, age, etc...) associated with domains.	16		
	ILT:				
	Exit:	Demonstrate the ability to configure password characteristics for a domain.			
IA1 1.4	Know:	Common information security risks and threats.			Ability to explain, discuss and

Information Assurance Apprentice Technician Level 1					
Information Assurance Specialization - General (IA1 1.1)			Hours		Job Related Competencies
			OJL	ILT	
	Do:	Review, discuss and learn the importance of Information Systems Security. Understand the importance of protection mechanisms.	4		communicate the importance of Information and Systems security including common risks, threats and vulnerabilities.
	ILT:	Information Age Technology”, “Federal Information Systems Security Awareness”, "Computer Security 101", "Protect your AIS", Protect your AIS, the Sequel", "Networks at Risk", "Identity Theft: Protect Yourself" (WBT) Videos; http://certifiedtechtrainers.com/Advanced%20Security%20Essentials.htm		4	
	Exit:	Completion of video training and a monitored discussion with organization security personnel on the importance of IT security practices.			
IA1 1.5	Know:	Organization's security policies and practices.			Ability to discuss, explain and communicate organizational security policies and practices and supporting rationale.
	Do:	Identify the organization's security policy and practices and how they combine to implement due care and due diligence within an organization. Develop a short presentation or paper to a security audience demonstrating a working knowledge of the organization's security policies and practices.	16		
	ILT:	-			
	Exit:	A short paper or presentation to a security audience demonstrating a working knowledge of the organization's security policies and practices.			
IA1 1.6	Know:	Organizational security ethics and federal ethics statutes.			Ability to explain, discuss and communicate the organization's security ethics policies and fundamental federal security statutes.
	Do:	Demonstrate a working knowledge of the organization's security ethics, applicable National security ethics, statutes and organizations acceptable use policy. Provide a short presentation to a group on security ethics of the organization.	8		
	ILT:				
	Exit:	A short presentation to a group on security ethics of the organization and federal statutes.			
IA1 1.7	Know:	Overview of areas of IA specialization career fields , as seen from a career development standpoint.			Ability of see individual IA career path.

Information Assurance Apprentice Technician Level 1					
Information Assurance Specialization - General (IA1 1.1)			Hours		Job Related Competencies
			OJL	ILT	
	Do:	Review, research and discuss an understanding of specific IA career paths and begin to identify what path(s) are of greatest interest.	16		
	ILT:	-			
	Exit:	Identification of general career interests.			
IA1 1.8	Know:	The organization's data classification levels , system roles, and criteria.			Ability to explain, discuss and communicate the organization's information classification system roles, classes and criteria.
	Do:	Review, research and discuss how the organizations classification structure functions.	16		
	ILT:	-			
	Exit:	Successfully perform in-box exercise demonstrating proper data classification levels.			
IA1 1.9	Know:	Basic Security and QA.			Ability to develop a sound testing strategy and implement the strategy against an application.
	Do:	Develop a sound testing strategy and implementing the strategy against an application including identification, tracking and communication of bugs found with developer.	24		
	ILT:				
	Exit:	End User and developer acceptance of program and components.			
IA1 1.10	Know:	Unique and specific aspects relating to organizations Internal Security.			Ability to maintain the organizations internal security domain.
	Do:	Review, research and discuss significant internal security threats and potential mitigations.	24		
	ILT:	Operations Security Technology		40	
	Exit:	Provide a discussion paper on a significant internal security threat and potential mitigations.			
IA1 1.11	Know:	Carnegie Mellon Operationally Critical Threat, Asset, and Vulnerability Evaluation (OCTAVE) Framework.			Ability to focus on how operational systems are used to conduct an organization's business.
	Do:	Review, research and discuss purpose, key concepts and three phases of the OCTAVE model developed by Carnegie Mellon University.	8		
	ILT:	Risk Assessment Basics		40	
	Exit:	Successfully evaluate the organizations security risks in an operational context.			
1	Know:

			OJL	ILT	
1.12	Do:				
	ILT:				
	Exit:				

Information Assurance Apprentice Technician Level 1					
Information Assurance Specialization - General (IA1 1.1)			Hours		Job Related Competencies
			OJL	ILT	
Information Assurance Specialization - Network (IA1 2.1)			Hours		Job Related Competencies
			OJL	ILT	
IA1 2.1	Know:	Network troubleshooting techniques.			Ability to resolve network problems using software tools.
	Do:	Using basic tools such as ping, trace and others to isolate and repair a network problem.	80		
	ILT:	Networking I		40	
	Exit:	Successfully resolve problems using software tools.			
IA1 2.2	Know:	Concepts and functions of Virtual Private Networking .			Ability to secure an organization VPN.
	Do:	Configure client and VPN gateway for secure authentication and encryption.	80		
	ILT:	Network Security Basics		40	
	Exit:	Successfully and independently configure client and VPN gateway for secure authentication and encryption.			
IA1 2.3	Know:	Understanding the more advanced router administration functions and their interrelations.			Ability to support an organizations router administration.
	Do:	Configure routers, switches and other network components and put them to work in the network.	80		
	ILT:	Networking II		40	
	Exit:	Successfully and independently configure routers, switch and other network components.			
IA1 2.4	Know:	Layers 1-4 of the OSI model and securing the network backbone .			Ability to troubleshoot the backbone and keep the network secure.
	Do:	Troubleshoot the backbone. Understand router and switch protocol. Determine subtle difference between normal and abnormal functions. TACACS	80		
	ILT:	Networking III		40	
	Exit:	Successfully provide network troubleshooting, identification of normal and abnormal functioning. Identify when to suspect a bug in IOS code.			
IA1 2.5	Know:	A basic understanding of the organizations network layout , technologies used, key hubs or routing centers, etc.			Ability to understand of the organizations network

Information Assurance Apprentice Technician Level 1					
Information Assurance Specialization - General (IA1 1.1)			Hours		Job Related Competencies
			OJL	ILT	
	Do:	Study existing documentation and discuss the network architecture with local networking personnel.	40		technologies and topologies.
	ILT:				
	Exit:	Create a high level network drawing showing the 3 tier network architecture of the network.			
IA1 2.6	Know:	Procedures of Network Documentation.			Ability to read and revise physical network topology diagrams.
	Do:	Use network documentation to find subnets in buildings, fiber runs from building to building and network devices used in each building.	80		
	ILT:				
	Exit:	Successfully document physical network topology diagrams, using drawing and spreadsheets.			
IA1 2.7	Know:	Practices and procedures for network services back-up and recovery.			Ability to perform network services back-ups and recoveries.
	Do:	Execute successful network services back-ups and recoveries. Validate that back-ups work properly in a lab environment.	24		
	ILT:				
	Exit:	Execute successful network services back-ups and recoveries.			
IA1 2.8	Know:	Basic operational concepts of Internet Protocols and the Internet.			Ability to explain basic operational concepts of Internet Protocols.
	Do:	Complete training and discuss observations. Provide a demonstration of basic knowledge.	4		
	ILT:	"Warriors of the Net"		1	
	Exit:	Completion of training and a demonstration of basic knowledge.			
Information Assurance Specialization - Services (IA1 3.1)			Hours		Job Related Competencies
			OJL	ILT	
IA1 3.1	Know:	Practices and procedures for user account management and access privileges.			Ability to establish, update and disestablish

Information Assurance Apprentice Technician Level 1

			OJL	ILT	
	Exit:	Provide a discussion paper on significant desktop operating system vulnerability supported by security scan.			
IA1 5.2	Know:	Basic understanding of how to create and manage User Domain and Local system accounts.			Ability to provide secure User Account Management.
	Do:	Create, modify and delete both domain and local system accounts.	40		
	ILT:				
	Exit:	Successfully and independently provide secure User Account Management.			
IA1 5.3	Know:				
	Do:				
	ILT:				
	Exit:				
Information Assurance Specialization - Tools (IA1 6.1)			Hours		Job Related Competencies
			OJL	ILT	
IA1 6.1	Know:	Practices and procedures for obtaining and installing Public Key Infrastructure (PKI) user certificates.			Ability to obtain and assist in installing and configuring PKI software certificates on a workstation or server.
	Do:	Successfully execute activities related to obtaining, installing and testing PKI certificates for end-user workstations and servers.	16		
	ILT:				
	Exit:	Execute activities for user account management and management of access privileges such as PKI.			
IA1 6.2	Know:	Basics of the organizational anti-virus practices and tools.			Ability to support and maintain organizational anti-virus services.
	Do:	Successfully install, configure and maintain anti-virus software on organizational servers. Successful and complete participation in operating and maintaining organizational virus perimeter systems and workstation anti-virus definition servers.	40		
	ILT:				
	Exit:	Successful installation, configuration and maintenance of organization's anti-virus services.			

Information Assurance Apprentice Technician Level 1					
Information Assurance Specialization - General (IA1 1.1)			Hours		Job Related Competencies
			OJL	ILT	
IA1 6.3	Know:	Organization's practices and procedures for installing, configuring and maintaining workstation and network firewalls.			Ability to install and properly configure basic workstation and network firewalls.
	Do:	Successfully install, configure and maintain firewall services such as; workstation firewalls, subnet firewalls, organizational firewalls, etc. Participate in installing firewall block and exception lists. Participate in firewall log analysis and reporting of anomalies.	120		
	ILT:	Security Concepts		40	
	Exit:	Successfully conduct firewall installations, configurations and maintenance activities.			
IA1 6.4	Know:	Basic concepts , configurations and policies related to the organization's firewall services.			Ability to discuss and communicate basic information about the organization's firewall.
	Do:	Accurately describe the organization's firewall policies, configurations and general concepts. Deliver a short paper or presentation to a security audience demonstrating a working knowledge of the organization's firewall concepts, policies and practices.	80		
	ILT:				
	Exit:	A short paper or presentation to a security audience demonstrating a working knowledge of the organization's firewall concepts, policies and practices.			
IA1 6.5	Know:	Practices and procedures for monitoring network Intrusion Detection Systems (IDS).			Ability to monitor network IDS; to configure IDS alerts and to perform IDS log analysis and incident reporting.
	Do:	Accurately describe procedures for monitoring, assessing and reporting incidents detected by the organizations IDS. Participate in the establishment of IDS alerts, IDS log analysis and incident reporting practices. Conduct IDS monitoring, analysis and reporting activities.	80		
	ILT:				
	Exit:	Conduct IDS monitoring, analysis and reporting activities.			
IA1 6.6	Know:	How to analyze incoming packets and protect the network using tools as Snort, Ethernet, firewalls and route nulling.			Ability to manage Intrusion Detection

Information Assurance Apprentice Technician Level 1					
Information Assurance Specialization - General (IA1 1.1)			Hours		Job Related Competencies
			OJL	ILT	
	Do:	Manage Intrusion Detection Systems - understand incoming packets for potential hostile intent and take protective action if required.	120		systems.
	ILT:				
	Exit:	Install and configure an IDS system and capture a packet based on implemented signatures.			
IA1 6.7	Know:	The difference between different types of firewalls and firewall management concepts .	80		Ability to manage the firewalls.
	Do:	Ability to analyze the requirements for a firewall entry, makes the entry, and applies it to an interface. Understanding the difference between different types of firewalls.			
	ILT:				
	Exit:	Analyze the requirements for a firewall entry, explain conclusions, make the entry, and then apply it to an interface. Recover from errors.			
IA1 6.8	Know:	Identification & Authentication Concepts .	80		Ability to understand the various methods of identification and authentications concepts for windows environments.
	Do:	Become familiar with identification and authentication concepts for windows environments (local, domain, etc...).			
	ILT:				
	Exit:	Describe the various methods of identification and authentications concepts for windows environments.			
Information Assurance Specialization - Soft Skills (IA1 7.1)			Hours		Job Related Competencies
			OJL	ILT	
IA1 7.6	Know:	ORAL COMMUNICATIONS	24		Listens to others; makes clear and effective oral presentations to individuals and groups.
	Do:	Participate in site visits. Assist in developing EEO Special Observances. Represent supervisor at meetings/conferences. Give briefings/presentations. Participate in professional organizations. Serve as guest lecturer for community events. Perform volunteer work. Serve as member of Workforce Diversity Council.

	Exit:	Actively seeks customer input; ensures customer's needs are met; continuously seeks to improve the quality of services, products, and processes. Balances customer desires with task requirements to produce a quality product or process.			

IA1 7.14	Know:	FLEXIBILITY			Adapts to change in the work environment; effectively copes with stress.
	Do:	Perform duties in absence of supervisor. Assume Lead responsibilities. Volunteer for special assignments and/or teams. Develop multiple contingency plans. Cross-train in related field. Serve on a decision-making committee to develop multiple contingency plans.	24		
	ILT:	How to Handle Difficult People; Managing Change; Thinking Outside the Boundaries; Crisis Communication, Stress Management; How to Manage Multiple Projects & Meet Deadlines; Thinking Outside the Lines; Managing Multiple Projects; Objectives & Deadlines; Time Management; Organizational Change & Development			
	Exit:	Adapts to change in the work environment; effectively copes with stress.			
IA1 7.15	Know:	DECISIVENESS			Takes action and risks when needed; makes difficult decisions when necessary.
	Do:	Set a target date for a decision & plan the decision process accordingly. For a complex decision, create a flow chart with several decision points. Discuss with supervisor. Volunteer for assignments with tight timelines that force decisiveness (e.g., site visits, IGs, etc.). Serve as officer in volunteer organization. Chair a panel. Serve on teams that have a specific focus. Assist in the formulation of a POA&M. Serve as a sports referee/umpire.	24		
	ILT:	Assertiveness Skills; Decisiveness & Empowerment Skills; Time Management; Creative Problem Solving.			
	Exit:	Takes action and risks when needed; makes difficult decisions when necessary.			

IA1 7.16	Know:	TECHNICAL COMPETENCE			Demonstrates technical proficiency and an understanding of its impact in areas of responsibility.
	Do:	Perform duties in absence of supervisor. Shadow supervisor. Network with other people in your field. Cross-train in related field. Attend technical-specific conference(s). Keep list of relevant resources in job-related fields. Join/participate in technical job-related professional organization (e.g., American Society of Military Comptrollers, etc.). Read technical/trade articles and periodicals. Give subject matter briefs. Consult with others who have technical skills/knowledge that you lack.	24		
	ILT:	Various Computer Courses, Technical Training in your field.			
	Exit:	Demonstrates technical proficiency and an understanding of its impact in areas of responsibility.			
IA1 7.17	Know:	DIVERSITY AWARENESS			Respects and values the strengths and unique offerings of different groups/ individuals.
	Do:	Assist in EEO Special Observances. Serve on EEO Committee. Shadow assignment in EEO. Seek assignments where you are exposed to cultural diversity. Develop a plan to capitalize on the diversity of your work unit by thinking of ways in which each individual's unique talents & preferences can be drawn into the work process. Discuss plan with supervisor. Obtain statistics on local workforce demographics and analyze. Sponsor an overseas student. Participate in a service organization such as Big Brothers/Big Sisters, Literacy Program, etc.	28		
	ILT:	Valuing Diversity; Communication Skills; Prevention of Sexual Harassment; EEO for Supervisors; Introduction to Sociology; Gender & Communication; Race & Ethnic Relations; Sociology of Gender; Race & Ethnic Relations; EEO -- It's Place in the Federal Government.			
	Exit:				
			2000	350

	Exit:	Provide a discussion paper describing potential impacts on organizations with regard to this subject.			
IA2 1.2	Know:	Understand reporting requirements and procedures of incident reporting in the event of a successful attack against our systems.			Ability to understand reporting requirements and procedures of incident reporting.
	Do:	Complete an incident report for a simulated successful attack.	40		
	ILT:	Incident/Response & Handling		40	
	Exit:	Concise and accurate incident report for a simulated successful attack.			
IA2 1.3	Know:	Organizations physical security requirements - Tempest, Harden rooms & safes, physically securing wiring closets, cable paths.			Ability to maintain the organizations physical security.
	Do:	Research and design a secure computer room with cryptographic equipment, acceptable to the senior engineer.	40		
	ILT:	-			
	Exit:	Provide a paper design for a secure computer room with cryptographic equipment, acceptable to the senior engineer.			
IA2 1.4	Know:	Policies and procedures that involve documents labeled Business Sensitive, Foreign Access, etc.			Ability to determine what data falls into what classification and the access controls.
	Do:	In-box exercise demonstrating proper marking of appropriate document.	40		
	ILT:	-			
	Exit:	Successfully perform in-box exercise demonstrating proper marking of appropriate document.			

IA3 1.1	Know:	Security Management Organizational Concepts.			Ability to understand the planning, organization and roles of individuals involved in security, develop security policies and utilize tools used to identify threats, classify assets and rate vulnerabilities.
	Do:		80		
	ILT:	Security Management Practices		40	
	Exit:				
Information Assurance Specialization - Network (IA2 2.1)			Hours		Job Related Competencies
			OJL	ILT	
IA2 2.1	Know:	Advanced network troubleshooting techniques.			Ability to resolve network problems using software tools.
	Do:	Using basic tools such as ping, trace and others to isolate and repair a network problem.	80		
	ILT:	Networking IV		40	
	Exit:	Successfully resolve problems using software tools.			
IA2 2.2	Know:	Knowledge of Windows and UNIX ports & protocols in network designs.			Ability to understand various network designs.
	Do:	Describe differences between tactical and non-tactical networks, develop notional tactical network designs, and describe typical tactical operating environments.	80		
	ILT:				
	Exit:	Successfully document understanding of various network designs.			
IA2 2.3	Know:	Troubleshooting techniques for network monitoring and administration.			Ability to provide secure network administration and monitoring.
	Do:	Monitor the network using tools such as e-mon and HP open view. Basic network troubleshooting.	80		
	ILT:	Network Security, Communication & Authentication		40	
	Exit:	Resolve problems using software tools.			
IA2 2.4	Know:	The various LAN technologies, when they are used and how they are implemented to support a secure LAN.			Ability to implement various technologies to keep the LAN secure.
	Do:	Implement various technologies to keep the LAN secure.	80		
	ILT:	Network Attacks, Computer Crime & Hacking		40	
	Exit:	Provide secure LAN administration.			
IA2 2.5	Know:	The various WAN technologies, when they are used and how they are implemented to support a secure WAN.			Ability to implement various technologies to keep the WAN secure.
	Do:	Implement various technologies to keep the WAN secure.	40		
	ILT:				
	Exit:	Provide secure WAN administration.			

IA2 2.6	Know:	Server Back Up & Recovery best practices.			Ability to implement best practices.
	Do:	Review, learn and compile server Back up & recovery best practices.	80		
	ILT:				
	Exit:	Successfully implement Server Back Up & recovery Best Practices.			
Information Assurance Specialization - Services (IA2 3.1)			Hours		Job Related Competencies
			OJL	ILT	
IA2 3.1	Know:	How to employ the services and processes to handle NT Security and authentication, resolving (translating) human-friendly names into IP addresses recognizable by computers with WINS - Managing Active Directory Users/Group/Organizational Units.			Ability to manage Active Directory Users/Group/Organizational Units.
	Do:	Understand the services and creation of Organizational Unit complete with policies and security assigned by coach.	80		
	ILT:				
	Exit:	Successfully and independently manage the Active Directory Users/Group/Organizational Units.			
IA2 3.2	Know:	How to employ the services and processes to handle Internet Address lookups, Reverse lookups, Mail Records, IP and IP Masking, and Dynamic Host Configuration Protocol setup - Managing DNS (Domain Name Services).			Ability to Manage DNS (Domain Names Services)
	Do:	Understand the concepts and Successful creation of DNS Forward/Reverse lookups, proficiency with the NSLOOKUP utility, Successful.	80		
	ILT:				
	Exit:	Successfully and independently manage the DNS.			

IA2 3.3	Know:	Various technologies to provide Security support for PED's .			Ability to provide security for PED's.
	Do:	Configure and troubleshoot PDA, cell phones, etc. research, discuss and learn best practices.	80		
	ILT:				
	Exit:	Provide a discussion paper on significant PED security threat.			
Information Assurance Specialization - Operations and Applications (IA2 4.1)			Hours		Job Related Competencies
			OJL	ILT	
IA2 4.1	Know:	How to administer Window 2000 System administration tasks and Administer Internet Information Server (IIS). Understand the primary security risks related to this technology.			Ability to provide web server administration.
	Do:	Participate in Web Server Security Administration by demonstrating installation and security configuration of IIS on a server in the IT test bed.	80		
	ILT:				
	Exit:	Demonstrate installation and security configuration of IIS on a server in the IT test bed. The server must successfully withstand an intrusion attempt.			
IA2 4.2	Know:	Desktop Back Up & Recovery best practices.			Ability to implement best practices.
	Do:	Review, learn and compile desktop Back up & recovery best practices.	80		
	ILT:				
	Exit:	Successfully implement desktop Back Up & recovery Best Practices.			
IA2 4.3	Know:	Customer requirements and develop a database backup & recovery strategy to meet identified requirements - with emphasis on data base and application software.			Ability to provide database backup & recovery.
	Do:	Participate in the development of a backup strategy.	80		
	ILT:				
	Exit:	Successfully develop a backup strategy based on customer requirements and demonstrate a successful recovery within times identified in requirements.			

Information Assurance Specialization - Practices (IA2 5.1)			Hours		Job Related Competencies
			OJL	ILT	
IA2 5.1	Know:	Guidelines in Information Assurance Auditing.			Ability to use guidelines in Information Assurance auditing.
	Do:	Perform an ST&E using National Security Agency, NIST and Navy guidelines.	80		
	ILT:				
	Exit:	Successfully provide ST&E.			
IA2 5.2	Know:	Knowledge of the tools and processes required for performing & interpreting automated vulnerability scans of the network. Knowledge of Windows and UNIX ports & protocols.			Ability to perform & interpret vulnerability scans of the network.
	Do:	Perform & interpret vulnerability scans.	40		
	ILT:				
	Exit:	Successfully and independently perform & interpret three or more vulnerability scans.			
IA2 5.3	Know:	Understanding how to request an external scan by Navy agencies certified to do scanning.			Ability to conduct external scans.
	Do:	Conduct External Scans	40		
	ILT:				
	Exit:	Complete a simulated request by preparing the proper correspondence.			
IA2 5.4	Know:	Information Assurance Accreditation.			Ability to perform formal accreditation of networks and/or applications.
	Do:	Understand and apply the accreditation process. Interpret and apply vulnerability scan results to prepare formal system accreditation documentation.	40		
	ILT:				
	Exit:	Perform formal accreditation of networks and/or applications.			
IA2 5.5	Know:	Vulnerability Test & Evaluation guidelines.			Ability to perform security test & evaluations.
	Do:	Perform a security test & evaluation using National Security Agency, NIST, SANS and organizational guidelines.	40		
	ILT:	Information Assurance Methodology (IAM) Training.		40	
	Exit:	Perform security test & evaluations.			
IA2 5.6	Know:	Information Assurance Accreditation Requirements			Ability to assist with a formal DITSCAP accreditation of networks and/or applications.
	Do:	Understand of the requirements related to various aspects of the certification.	40		
	ILT:				
	Exit:	Assist with a formal DITSCAP accreditation of networks and/or applications.			

IA2 5.1	Know:	Understand quantitative and qualitative risk analysis methods, and the concept of residual risk.	24		Ability to provide risk/threat analysis.
	Do:	Risk/Threat Analysis			
	ILT:	Security Assessment		40	
	Exit:	Perform a Risk Assessment in conjunction with Business Case Analysis. Presenting findings in a briefing paper/group presentation.			
Information Assurance Specialization - Tools (IA2 6.1)			Hours		Job Related Competencies
			OJL	ILT	
IA2 6.1	Know:	The difference between different types of firewalls and firewall management concepts .			Ability to manage the firewalls.
	Do:	Ability to analyze the requirements for a firewall entry, makes the entry, and applies it to an interface. Understanding the difference between different types of firewalls.	80		
	ILT:	Internet Firewalls and E-Commerce		40	
	Exit:	Analyze the requirements for a firewall entry, explain conclusions, make the entry, and then apply it to an interface. Recover from errors.			
IA2 6.2	Know:	Components to Key System Administration (PKI) .			Ability to operate and maintain a Key Local Registration Authority Workstation.
	Do:	Install and configure a DoD Key Local Registration Authority Workstation.	80		
	ILT:				
	Exit:	Successfully and independently install and configure a Key Local Registration Authority Workstation.			
IA2 6.3	Know:	Cryptography Concepts and Technology .			Ability to apply cryptography concepts.
	Do:	Understand the military and commercial methods and applications of cryptography.	80		
	ILT:				
	Exit:	Describe differences and identify products for military and commercial applications.			

Information Assurance Specialization - Soft Skills (IA2 6.1)			Hours		Job Related Competencies
			OJL	ILT	
IA2 6.1	Know:	SITUATIONAL LEADERSHIP			Demonstrates and encourages high standards of behavior; adapts leadership style to situations and people; empowers, motivates and guides others.
	Do:	<p>Seek out role models who exhibit good leadership practices and interview or shadow. Read books and listen to tapes on effective leadership and various leadership styles (e.g., Deming, Covey, etc.).</p> <p>Read books about successful managers (e.g., Lee Iacocca, Dave Thomas, Sam Walton, etc.). Review results of 360 Assessment to develop an understanding of your leadership style.</p> <p>Seek temporary assignment in your organization that provides increasing responsibilities to be accountable for a task or decision.</p> <p>Analyze your leadership style in relation to each of your employees (using instrument such as Myers-Briggs Inventory) and try to modify your behavior to most effectively capitalize on each employee's profile.</p> <p>Serve as an officer in a service organization. Serve as a project leader for a community exhibit/event. Serve as a spokesperson for an issue at a community meeting.</p>	40		
	ILT:	<p>Situational Approaches to Leadership; How to Supervise People; Introduction to Supervision; Supervision and Group Performance; Assertiveness Skills for Managers & Supervisors; Management Development Seminar; 1001 Ways to Energize Employees; Critical Thinking; Working with Difficult People; Principles of Management; Fundamentals of Leadership; Organizational Behavior; Leadership; Effective Work Delegation; Criticism & Discipline Skills for Managers.</p>			
	Exit:	Demonstrates and encourages high standards of behavior; adapts leadership style to situations and people; empowers, motivates and guides others.			

IA2 6.2	Know:	DEMONSTRATE CORE VALUES			Exhibits through personal performance the principles of honor (ethical behavior), commitment (technical excellence and quality of work), and courage (mental strength to do what is right).
	Do:	Review Code of Ethics (Public Law 96-303 & 5 CFR Part 2635) periodically. Flow chart your job, re-evaluate annually, and apply improvements. Maintain a professional demeanor in interaction with others. Volunteer in community organizations in which you serve as role model (e.g., Big Brothers/Big Sisters, Literacy Program, etc.).Continuously update your knowledge of policies and regulations that apply to your area.	24		
	ILT:	Ethics; Ethics in Business			
	Exit:	Exhibits through personal performance the principles of honor (ethical behavior), commitment (technical excellence and quality of work), and courage (mental strength to do what is right).			
IA2 6.3	Know:	MANAGING DIVERSE WORKFORCE			Recognizes the value of culture, ethnic, gender, and other individual differences; provides employment and development opportunities for a diverse workforce.
	Do:	Familiarize yourself with EEO & Affirmative Action rules and policies. Familiarize yourself with discrimination complaints process. Serve on an EEO Committee. Serve on an activity Awards Committee. Help organize a Special Emphasis event. Evaluate the developmental needs of the employees in your work group.	40		
	ILT:	Managing Workforce Diversity; How to Become a Great Communicator; Multicultural Workforce Management; EEO for Supervisors; Prevention of Sexual Harassment; Introduction to Sociology; Gender & Communication; Psychology of Work Force Diversity; Intercultural Communications; Race & Ethnic Relations; Sociology of Gender			
	Exit:	Recognizes the value of culture, ethnic, gender, and other individual differences; provides employment and development opportunities for a diverse workforce.			

IA2 6.4	Know:	COACHING/COUNSELING			Develops skills in observation, listening, and one-on-one teaching; applies them to assist others to learn and continually improve their performance; and provides effective feedback; develops the ability to counsel others to help them to achieve personal and professional growth.
	Do:	Develop coaching/counseling skills through involvement in a service organization (e.g., Scouting, team sports, Big Brother/Big Sisters, etc.). Read books on coaching/counseling skills. Ask employees to identify the areas in which they would find one-on-one teaching to be the most helpful; develop a plan for providing identified training. Shadow a senior manager. Perform duties in absence of supervisor.	32		
	ILT:	Effective Listening Skills; Coaching and Teambuilding Skills for Supervisors & Managers; How to Give Constructive Feedback; Coaching Skills for Managers & Super-visors; Coaching to Increase Productivity ; Coaching, Criticism & Discipline Skills for Managers & Supervisors; Introduction to Psychology; Applied Psychology; Introduction to Sociology; Human Relations; The Helping Relationship; Introduction to Behavior Modification; Business & Industrial Psychology.			
	Exit:	Develops skills in observation, listening, and one-on-one teaching; applies them to assist others to learn and continually improve their performance; and provides effective feedback; develops the ability to counsel others to help them to achieve personal and professional growth.			
IA2 6.5	Know:	CONFLICT MANAGEMENT			Anticipates and seeks to resolve confrontations, disagreements, and complaints in a constructive manner.
	Do:	Discuss with your supervisor a situation in which you had to exhibit conflict management skills and ask for feedback on how you handled it. Practice active listening skills. Serve on a liaison/mediator working group to resolve organizational problems/issues. Perform duties in absence of supervisor. Observe Labor Relations contract negotiation meetings.	40		
	ILT:	How to Handle Difficult People; Conflict Management Skills; Conflict Management & Confrontational Skills ; Responding to Conflict; How to Handle People with Tact & Skill; Positive Approaches to Difficult People.			
	Exit:	Anticipates and seeks to resolve confrontations, disagreements, and complaints in a constructive manner.			

IA2 6.6	Know:	CHANGE MANAGEMENT			<p>Serves as a positive agent for change in the organization's structural alignment, climate, or operational processes. Learns about and proactively advocates and influences adoption of promising new ideas, methods, services, and products from knowledge of best practices in government and industry.</p>
	Do:	<p>Keep up-to-date by reading emerging political, economic and technological changes. Meet with a manager who has successfully implemented a change; discuss the steps he/she took throughout the change process; review your own plans for change with this person and ask for feedback.</p> <p>Assist others in gathering information. Implement a change in your work unit by identifying a problem situation that needs changing, deciding what changes are needed, developing & choosing alternatives and then making the necessary change.</p> <p>Volunteer to serve on a work group established to survey the need for change and/or determine change policies & procedures.</p> <p>Read books/articles on change management, such as: Organization Development & Change, (Huse & Cummings), or Checklist for Change, (Harvey).</p> <p>Serve on a work group to develop organizational vision statements and long range plans.</p>			
	ILT:	<p>Change Management; Models for Change; Various TQL Courses; Leadership: Change, Challenge & Empowerment; Organizational Change & Development; Managing Organizational Change</p>			
	Exit:	<p>Serves as a positive agent for change in the organization's structural alignment, climate, or operational processes. Learns about and proactively advocates and influences adoption of promising new ideas, methods, services, and products from knowledge of best practices in government and industry.</p>			

IA2 6.7	Know:	TEAM BUILDING			Considers and responds appropriately to the needs, feelings, capabilities and interests of others; provides feedback; treats others equitably; fosters cooperation, communication, and consensus among groups.
	Do:	Serve on a project team. Hold brainstorming sessions. Serve as an officer in a professional/community organization. Chair a panel .Participate in community organizations (e.g., Scouting, sports, religious groups, etc.)Perform duties in absence of supervisor.	40		
	ILT:	How to Lead a Team; Fundamentals of Team Building; Performance Management of a Team; Meeting Skills for Super-visors & Managers; Jump-Starting High-Performing Teams; How to be a More Effective Team Leader; Team Building; Sociology of Small Groups; Team Building & Team Leadership; Effective Work Delegation; Delegation & Empowerment; Project Management Skills for Teams.			
	Exit:	Considers and responds appropriately to the needs, feelings, capabilities and interests of others; provides feedback; treats others equitably; fosters cooperation, communication, and consensus among groups.			
IA2 6.8	Know:	INFLUENCING/NEGOTIATING			Networks with and provides information to key groups and individuals; appropriately uses negotiation, persuasion and authority in dealing with others to achieve goals.
	Do:	Volunteer for assignments that require interaction with members of different activities and levels. Participate in a community organization (e.g., Scouting, YMCA, church, Navy Kids, etc.)Read books on influencing people, such as <i>How to Make Friends & influence People</i> , (Dale Carnegie).Serve as a liaison/POC for an organizational objective. Observe Labor Relations contract negotiation meetings. Shadow a senior manager. Perform duties in absence of supervisor. Volunteer for site visits. Serve as a spokesperson for an issue at a community meeting.	40		
	ILT:	Assertiveness Skills; Negotiation Skills; Active Listening; Delegation & Empowerment; Alternative Dispute Resolution; 1001 Ways to Energize Employees; Introduction to Sociology; Persuasive Communication.			

	Exit:	Networks with and provides information to key groups and individuals; appropriately uses negotiation, persuasion and authority in dealing with others to achieve goals.			
IA2 6.9	Know:	HUMAN RESOURCES MANAGEMENT			Ensures effective recruitment, selection, training, performance appraisal, recognition and corrective/disciplinary action; promotes affirmative employment, good labor relations, and employee well-being.
	Do:	Define & write/revise a job description for a position in your department. Familiarize yourself with Federal hiring rules & regulations. Read EEO & Affirmative Action guidelines. Establish & implement developmental assignments for new & seasoned employees in your work unit to enhance their performance and maturity on the job. Review the current performance appraisal elements/standards of your employees, analyze their measurability & appropriateness to their jobs, & make changes as necessary. (Seek assistance from the personnel office, as needed.) Familiarize yourself with procedures to reward and discipline employee performance. Familiarize yourself with employment policies. Familiarize yourself with grievance procedures.	40		
	ILT:	Management & Organizational Behavior; Personnel Management; Industrial-organizational Psychology.		30	
	Exit:	Ensures effective recruitment, selection, training, performance appraisal, recognition and corrective/disciplinary action; promotes affirmative employment, good labor relations, and employee well-being.			
			2000	350	

Information Assurance Apprentice Technician Level 3

Information Assurance Specialization - General (IA3 1.1)		Hours		Job Related Competencies	
		OJL	ILT		
IA3 1.1	Know:	Introduction to Best Industrial Practice (DoD only - DoD/Comsec).			Ability to implement best industrial security practice.
	Do:	Understand the equipment and processes employed to protect transmissions of classified data.	40		
	ILT:				
	Exit:	Explain the purpose, high-level architecture, and major components of the (DoD Electronic Key Management System).			
IA3 1.2	Know:	Operations Security Policy.			Ability to incorporate successful operational security practices, procedures and policies in the organization.
	Do:	Study local and higher level practices, procedures and policies relating to operations security.	40		
	ILT:	-			
	Exit:	Explain how operational security supports an organization.			
IA3 1.3	Know:	Security Management Employment Polices & Practices.			Ability to incorporate successful security management employment policies in the organization.
	Do:	Study local and higher level directives relating to personnel security.	80		
	ILT:	-			
	Exit:	Explain how personnel security relates to new hires and current employees.			
IA3 1.4	Know:	Security Awareness & Training.			Ability to develop and implement security awareness training in the organization.
	Do:	Research user security policies, procedures, and training requirements for the organization.	40		
	ILT:	Design and Development of Instruction Materials and resources		40	
	Exit:	Develop a user awareness briefing.			
IA3 1.5	Know:	Advanced Concepts (Law, Investigations & Ethics).			Ability to understand federal and state law with regard to cyber crime.
	Do:	Study federal and state law with regard to cyber crime.	40		
	ILT:	Cyber law		40	
	Exit:	Provide a discussion paper describing or citing specific law governing cyber crimes.			

Information Assurance Specialization - Network (IA3 2.1)			Hours		Job Related Competencies
			OJL	ILT	
IA3 2.1	Know:	Advanced Network Security Design (firewalls, IDS) concepts and practices.			Ability to set up and design networks using good industry design practices.
	Do:	Set up and design networks using good industry design practices - using various network devices.	80		
	ILT:			40	
	Exit:	Successfully and independently set up and design a secure network.			
IA3 2.2	Know:	When to use various remote services and how to properly configure the services.			Ability to configure and secure remote services.
	Do:	Build, configure and assess (security scans) on RAS,VPN and OWA.	80		
	ILT:				
	Exit:	Successfully and independently configure and secure Remote Services.			
IA3 2.3	Know:	Concepts of Network Attack Scenarios .			Ability to understand the concepts, attack types and various security risks associated with network attacks.
	Do:	Understand the concepts, attack types and various security risks associated with network attacks.	40		
	ILT:	-		40	
	Exit:	Successfully attacking a honeypot system in an Information Warfare lab environment, or providing a paper or presentation on this subject to a team or at an information sharing forum.			
IA3 2.4	Know:	Wireless Networking Security-Emanation Security Requirements.			Ability to incorporate wireless networking in to the organization with security considerations.
	Do:	Use tools such as WEPcrack and Snort to explore and assess Wi-Fi vulnerabilities.	80		
	ILT:	DB, NW, Web and Wireless Security Issues and Strategies.			
	Exit:	Provide a discussion paper on the vulnerabilities, latest developments, and mitigation actions for securing wireless IEEE 802.11 (Wi-Fi) equipment.			
IA3 2.5	Know:	Advanced Tactical Network Security Design.			Ability to set up and design tactical networks.
	Do:	Setting up and designing tactical networks.	80		
	ILT:	Studies in Network Security		40	
	Exit:	Develop a drawing of a mock tactical network connecting several locations.			

Information Assurance Specialization - EMail Services (IA3 3.1)			Hours		Job Related Competencies
			OJL	ILT	
IA3 3.1	Know:	Understanding the servers, processes and privacy employed to transmit e-mail .			Ability to secure E-Mail Services.
	Do:	Build, configure and assess (security scan) an email service.	80		
	Exit:	Successfully and independently build, configure and assess (security scan) an email service.			
IA3 3.2	Know:	Multi-Media Security concepts.			Ability to provide Multi-media security.
	Do:	Understand the basic vulnerabilities of multi-media collaboration tools on the desktop.	40		
	Exit:	Provide a discussion paper on a significant security threat to a specific desktop collaboration tool such as Netmeeting or Messenger.			
IA3 3.3	Know:	Messaging Systems - concepts and equipment. (DOD only)			Ability to understand and explain military messaging systems.
	Do:	Understand the equipment and processes employed to digitally sign, encrypt and transmit, receive and distribute military organizational messages.	40		
	Exit:	Explaining the purpose, high-level architecture, and major components of the DoD Defense Message System.			
IA3 3.4	Know:	Desktop Forensic Analysis concepts.			Ability to assist in desktop forensic analysis.
	Do:	Assist in examining, protecting and interpreting the evidence of attempted and successful computer intrusions.	80		
	Exit:	Understanding the legal and technical aspects of protecting and interpreting intrusion evidence from audit trails and logs.		40	

IA3 3.5	Know:	The vulnerabilities and security configuration options of collaborative server tools.			Ability to provide securing collaborative work environments.
	Do:	Research, learn and discuss threats to collaborative work environments .	80		
	ILT:				
	Exit:	Provide a discussion paper on a significant security threat to a specific server collaboration tool such as Microsoft Sharepoint Portal.			
IA3 3.6	Know:	Customer requirements and develop a backup strategy to meet identified requirements - with emphasis on data base and application software.			Ability to provide advanced desktop back up and recovery.
	Do:	Advanced Desktop Back Up & recovery.	80		
	ILT:				
	Exit:	Successfully develop a backup strategy based on customer requirements and demonstrate a successful recovery within times identified in requirements.			
Information Assurance Specialization - Operations and Applications (IA3 4.1)			Hours		Job Related Competencies
			OJL	ILT	
IA3 4.1	Know:	Visual Studio .NET, ASP and the development of Web interfaces.			Ability to deploy a simple web application and a successful security scan.
	Do:	Develop and deploy a simple web application with a successful security scan.	80		
	ILT:				
	Exit:	Successfully and independently develop and deploy a simple web application with a successful security scan.			
IA3 4.2	Know:	SQL Data Base Design with Security Emphasis.			Ability to provide SQL Data Base Design with Security Emphasis.
	Do:	Research customer requirements and develop a backup strategy to meet identified requirements - with emphasis on data base and application software.	80		
	ILT:				
	Exit:	Successfully develop an ERD for an application which is validated by a Senior Developer for proper construction/elements.			
IA3 4.3	Know:	SQL Server Security Administration.			Ability to provide SQL Server Security Administration.
	Do:	Research, learn and discuss skills required to administer SQL server. Understand the primary security risks related to this technology.	40		
	ILT:				

	Exit:	Successfully and independently install and securely configure a SQL Server on a server in the IT test bed. The server must successfully withstand an intrusion attempt.			
IA3 4.4	Know:	Advanced Data Base Back Up & recovery.			Ability to provide data base back up & recovery.
	Do:	Determine customer requirements and develop a backup strategy to meet identified requirements - with emphasis on data base and application software.	40		
	ILT:				
	Exit:	Successfully develop a backup strategy and demonstrate a successful recovery within times identified in requirements.			
IA3 4.5	Know:	Knowledge of the processes and configurations employed to provide disaster recovery services.			Ability to provide disaster recovery services.
	Do:	Advanced Server Back Up & recovery.	40		
	ILT:				
	Exit:	Recovering an Exchange Server in the lab and an Individual e-mail message in production.			
Information Assurance Specialization - Practices (IA3 5.1)			Hours		Job Related Competencies
			OJL	ILT	
IA3 5.1	Know:	The proper procedures showing due care and reporting compliance with Information Assurance actions.			Ability to perform vulnerability alert actions.
	Do:	Assist in Information Assurance Vulnerability Alert Actions.	40		
	ILT:	-			
	Exit:	Assist the Information System Security Manager in processing the response to an IAVA security update action.			
IA3 5.2	Know:	The policies, rules and regulations related to proper use of auditing user services . Understand the tools used to monitor and prevent inappropriate use. Understand actions to be taken when inappropriate use is detected.			Ability to audit user services.
	Do:	Assist in auditing User Services.	40		
	ILT:	Auditing		40	
	Exit:	Successfully Configuring Internet blocks and monitoring email traffic using authorized tools and authorized test accounts in the production environment. Reviewing monitor logs and identifying trends and anomalies.			

IA3 5.3	Know:	Advanced concepts in IA forensic analysis .			Ability to support forensic analysis.
	Do:	Understand the legal and technical aspects of protecting and interpreting intrusion evidence from audit trails and logs.	80		
	ILT:	Forensics		40	
	Exit:	Explain the process of examining, protecting and interpreting the evidence of attempted and successful computer intrusions.			
IA3 5.4	Know:	Security Monitoring, Traffic and Trend Analysis concepts.			Ability to provide security monitoring, traffic and trend analysis.
	Do:	Assist in security monitoring, traffic and trend analysis.	80		
	ILT:				
	Exit:	Successfully identify patterns associated with various malicious attacks (DoS, Spoofing, etc...).			
IA3 5.5	Know:	System Accreditation & Information Assurance Certification Requirements			Ability to perform formal accreditation of networks and/or applications.
	Do:	Understand and apply the DITSCAP accreditation process. Interpret and apply ST& E and vulnerability scan results to prepare formal system accreditation documentation.	40		
	ILT:				
	Exit:	Perform three or more formal DITSCAP accreditations of networks and/or applications. (NX 4015)			
Information Assurance Specialization - Tools (IA3 6.1)			Hours		Job Related Competencies
			OJL	ILT	
IA3 6.1	Know:	Advanced Identification & Authentication Concepts			Ability to configure an environment using advanced identification and authentication concepts (PKI, Common Access Card, biometrics, etc...).
	Do:	Research the use of advanced identification and authentication concepts (PKI, Common Access Card, biometrics, etc...).	80		
	ILT:	-			
	Exit:	Configure an environment using advanced identification and authentication concepts (PKI, Common Access Card, biometrics, etc...).			
IA3 6.2	Know:	Advanced Access Controls Concepts.			
	Do:		80		
	ILT:				
	Exit:				

IA3 6.3	Know:	Advanced Cryptography Concepts & Technology.			Ability to use encryption techniques for secure data.
	Do:	Understand the techniques, strengths and weaknesses of selected encryption systems (military).	80		
	ILT:	Cryptography		30	
	Exit:	Correctly select, install and configure a cryptographically protected information system using Type 1 encryption techniques to protect Secret data. (military)			
Information Assurance Specialization - Soft Skills (IA3 8.1)			Hours		Job Related Competencies
			OJL	ILT	
IA3 8.1	Know:	INNOVATIVE THINKING			Develops insights and solutions; fosters innovation among others.
	Do:	Hold a brainstorming session with your work unit to discuss a current situation/problem, encourage creative ideas, record every idea, and then evaluate options. Make a list of several problems you face, rewrite each problem as an objective, list several creative ways to reach each objective, and discuss the findings with your supervisor. Participate in professional organizations and stay current in the professional literature to keep track of the newest developments in your field. Formulate a POA&M for a major tasking. Read and write book reports on visionaries (e.g., Stephen R Covey, Avraham Y. Goldratt, Joel Barker, etc.). Serve on a team established to solve a specific problem.	20		
	ILT:	Creative Problem Solving; Thinking Outside the Lines; Benchmarking: The Tool to Improve Competitiveness; Oral Communications; Customer Service; Thinking Outside the Boundaries; Creative Thinking; 1001 Ways to Energize Employees.			
	Exit:	Develops insights and solutions; fosters innovation among others			

IA3 8.2	Know:	PROGRAM DEVELOPMENT PLANNING & EVALUATION	20	Establishes policies, guidelines, plans, and priorities; identifies required resources; plans and coordinates with others; monitors progress and evaluates outcomes; improves organizational efficiency and effectiveness.
	Do:	Formulate an operational plan. Develop an annual set of goals for your work unit, specify interim goals and due dates, and evaluate monthly to check accomplishments. For each unit goal, develop a detailed plan of accomplishment. Serve on a strategic planning task force. Develop project management tracking system. Create a bulletin board to list goals/objectives & progress to-date. Serve on a cross-functional project team. Develop a POA&M. Formulate lessons learned on a specific project/program into a report.		
	ILT:	Project Management; Management Problems of the Technical Person in a Leadership Role; Program Planning & Analysis; Advanced Management Analysis; Performance Measurement: Financial & Program Evaluation; Fundamentals of Successful Project Management; Strategic Planning; Performance Measurements for Your Business; Statistical Process Control; Introduction to Management Science; Operations Management; Policy Analysis & Formulation.		
	Exit:	Establishes policies, guidelines, plans, and priorities; identifies required resources; plans and coordinates with others; monitors progress and evaluates outcomes; improves organizational efficiency and effectiveness

Appendix A

INFORMATION ASSURANCE — DEFINITIONS

Information Assurance (IA) - Information operations that protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality, and non-repudiation. This includes providing for restoration of information systems by incorporating protection, detection, and reaction capabilities.

Availability - Assuring information and communications services will be ready for use when expected.

Integrity - Assuring information will not be accidentally or maliciously altered or destroyed.

Authentication - Positively verifying the identity of sender and recipient of data.

Confidentiality - Assuring information will be kept secure, with access limited to appropriate persons.

Non-Repudiation - Assuring that proof of delivery is provided to the sender and proof of sender identity is provided to the recipient, so that neither can later deny having processed the information.

Appendix B

Possible Job Titles for Information Assurance Apprentice Participants

Level 1 - Technician

Computer Security Technician
Information Assurance Tester
Junior Information Security Analyst
Network Defense/Firewall Administration

Level 2 & 3 –Technician

Level 1- Management

Chief Information Systems Security Engineer
COOP Architect/Analyst (Continuity of Operation)
Disaster Recovery Specialist
Information Assurance Analyst
Information Assurance Engineer
Information Assurance Consultant
Information Assurance System Engineer
Information Forensic Engineer
Information Security Engineer
Information System Security Specialist
Information Systems Auditor
Information Systems Security Analyst
Infosecurity Analyst
Infosecurity Engineer
Intrusion Analysis Specialist
Network and Information Assurance Systems Engineer
Network Defense/Firewall Administration
Network Security Engineer
Secure Systems Engineer
Security Analyst
Security Engineer
Security Solutions Architect
Security Specialist
Technical Advisor for Continuity of Operations Support
Wireless Security Engineer

Level 2 & 3 - Management

Computer Systems Security Analysis Manager
Information Assurance Business Development Manager
Information Assurance Security Manager
Information Security Manager
IT Security Program Manager/Business Leader
Network Security Program Manager/Business Lead
Information Assurance Practice Manager
Security Policy Specialist/Manager
Information Assurance Policy Manager
Information Assurance Auditor
