

The Workforce System and Partnerships with Registered Apprenticeship Programs

Connecting Registered Apprenticeship programs with your state and local workforce system is a **win-win partnership**. It helps businesses thrive by creating highly-skilled, highly-productive employees, and it helps workers start new careers that offer higher wages.

The Workforce Innovation and Opportunity Act (WIOA) strengthens connections to apprenticeship and promotes Registered Apprenticeship as a proven work-based training strategy. Partnerships with Registered Apprenticeship help the workforce system increase worker skills, meet employer needs, and raise performance outcomes. WIOA Title I funds can be used to support placing WIOA participants into Registered Apprenticeship to support the one workforce vision of collaboration, cooperation and, ultimately, seamless connection across the spectrum of workforce development services.¹

WHAT IS REGISTERED APPRENTICESHIP?

Registered Apprenticeship is an industry-driven, high-quality career pathway where employers can develop and prepare their future workforce, and individuals can obtain paid work experience, receive progressive wage increases, classroom instruction, and a portable, nationally-recognized credential. Registered Apprenticeships are industry-vetted and approved and validated by the U.S. Department of Labor or a State Apprenticeship Agency. In addition to these benefits, Registered Apprenticeship programs offer other incentives for employers of all sizes:

- ▶ **Technical Assistance:** Access to a nationwide network of expertise, customer service, and support at no charge.
- ▶ **National Credential:** Graduates receive a portable, nationally-recognized credential.
- ▶ **Quality Standards:** Signifies program meets the national standards for quality and rigor.
- ▶ **Tax Credits:** In many states, businesses can qualify for tax credits.
- ▶ **Federal Resources:** Access funding and other resources from federal programs.

IS REGISTERED APPRENTICESHIP FLEXIBLE AND ADAPTABLE?

Yes! The length of a Registered Apprenticeship program can vary depending on the employer, complexity of the occupation, industry, and the type of program, with many programs as short as one year.

HOW CAN THE WORKFORCE SYSTEM PARTNER WITH REGISTERED APPRENTICESHIP?

The workforce system supports the components of RA.

- ▶ **Related Instruction:** Under WIOA, all classroom training is funded through individual training accounts (ITAs). Programs must be on the state's Eligible Training Provider List (ETPL) to take advantage of potential funding. In addition to ITAs for individual apprentices, utilizing contracts for cohort training is also possible.
- ▶ **On-the-job training (OJT):** On-the-job training (OJT) is funded through contracts, not ITAs. OJT contracts can cover one or multiple apprentices with the reimbursement for OJT typically at 50% of the apprentices' wage rate.
- ▶ **Supportive services:** WIOA formula funds can be utilized to provide a range of supportive services such as transportation and childcare. Also, if an ITA is used to fund the related training and instruction, the ITA can also be used to provide supportive services.
